Star Name:	V533 Cyg, AN 1940.0151
Coordinates (J2000):	21 21 03.27, +40 38 26.4
Variability type:	EB: ; Limits, System: 12.75 - 13.22 - 13.17 (R);
Period:	1.0147 d; Epoch(min): JD 2451454.123

Remarks:

Following Ahnert et al. (1949), the GCVS gives the type RV: and the period of 62.97 days for V533 Cyg. However, according to ROTSE-I data, this is a short-period variable star, probably of the EB type.
